

“**Tempus strongly supports CancerX's mission to create digital tools to help measure and alleviate the financial burdens faced by cancer patients.**”

**Ira Klein**

VP Medical Affairs, Payer Relations  
Tempus AI

We believe it is critically important to understand how existing financial barriers to genomic testing impair access to treatment and adherence to therapies that deliver optimal patient outcomes.

We hope our collaboration with CancerX results in a common toolset that can be deployed across private and public payers to ensure access to high quality healthcare even for those who cannot afford it.”
