

“ **We’re using these tools to ensure that our approaches effectively and equitably reach all patients, particularly those in underserved communities.**”

Sepehr Shojaei
VP, Design Solutions
Lightship

At Lightship, the resources developed through our partnership with CancerX, such as the 'Plan for Diverse, Equitable, and Inclusive Engagement' and the 'Develop Community Partnerships' tool, have been crucial in enhancing our community engagement efforts.

These resources have had a tangible impact on designing and executing decentralized clinical trials, helping us bring better care to more people.”
